

UNITED STATES NAVY

March 2 1943

Dear folks —

Again I think Mary has told you of our weekend, and again I want to thank you for sending her in Beloit. Mary really appreciates your efforts to make these trips easier for her. She spoke of how nice she thought it was for you to call her before she left and also of dad's meeting the bus.

Mary probably told you also of the terrible cold I have. Yesterday it was the worst of any day yet. I can't remember of having such a "blow" nose and sore throat. Today I feel much better but still have a little sore throat and have to "blow" a lot. I went over to sick bay this morning after breakfast and all they did was give me a couple of aspirin and a little cough medicine. I had been taking aspirin all the time — if I hadn't I couldn't have kept going. I really think in part the turning point and will be shaking this thing off in a few days. I'm going over to sick bay tonight mainly to

Continuation of our weekend meetings. If
they were here I would be sure of seeing ^{them} ~~one~~
during the weekend even if I drew a weekend watch.
I could call every day providing we could get a phone
put in. I'm just mentioning it to get your
opinion. I know I would have to borrow money
in order to do it but somehow I think these
next three months are as important to us as a
family as they are to me as a midshipman. My
next pay day is Mar. 17 when I'll get \$10 and
immediately (by order) turn over \$1 to the Red Cross. So
you can see my hands are tied financially.

Well I guess I've carried on too much
already. Don't hold it against me if you think our ideas
wildful thinking. I really want your honest opinion.

Love

George
